OGDEN, UTAH, - JULY 17, 1903.

SHOT ON A PLEASURE TRIP

George Douglass and Lafferty Arrested and

Base Ball Player Pleads Guilty - Bicycle Thief Sentenced -Divorce Mill.

A very sad and fatal accident occurred Wednesday evening near Brigham City, causing the death of Miss Pearl Martin, daughter of Bishop James Martin of Farr West, Weber county. The young lady with a number of other young friends had started from their homes, for the purpose of taking a pleasure trip up into Cache county, but they had only traveled about 20 miles from home, when their fond hopes of an enjoyable outing was blighted by the sudden discharge of a gun, the bullet striking Miss Martin in the head, causing instantaneous death.

The accident occurred about as fol-ows. One of the young men in the party had been using the gun, shooting at various objects along the road and had laid the loaded gun in the bottom of the wagen on some bedding. Miss Martin was straightening out the quilts when by some means the trigger caught on one of the quilts, discharging the firearm, the load entering her head. She fell to the ground dead. The young companions were grief stricken at the terrible ending of their short journey and the death of their young friend. One of the crowd as soon as possible communicated the sad news to the young lady's parents, whose grief was beyond control, and the father had the remains brought to Farr West, where the funeral services were held this af-ternoon at 1 o'clock. Miss Martin was 17 years of age and one of the most popular and highly esteemed young la-dies of the Farr West ward. Her sad and untimely demise has cast a gloom over the entire settlement.

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only the term. traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased. Mr. D.
